CAREER OBJECTIVE

Junior Full-Stack Web Developer with hands-on project experience building responsive web applications using React, Next.js, TypeScript, and MongoDB. Seeking an entry-level opportunity to contribute to user-focused products while continuously improving my frontend and backend development skills.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript

Frontend: Next.js, React.js, HTML5, CSS3, Tailwind CSS

Backend & Database: Node.js, Express.js, RESTful APIs, MongoDB

Auth & Security: Better Auth, Firebase Auth, JWT

UI Libraries: DaisyUI, HeroUI, Shadcn

Tools: VS Code, NoSQL, Git, GitHub, Figma

Soft Skills: Problem Solving, Debugging, Systematic Analysis, Team Coordination, Communication, Adaptability

PROJECTS

BazarDor – Bengali-First Market Price Comparison Platform Live Demo | GitHub

Technologies: Next.js, React.js, TypeScript, Better Auth, MongoDB, Tailwind CSS, HeroUI

- Built a responsive, Bengali-first interface with category navigation, a price ticker, and product grids that work across mobile, tablet, and desktop.
- Developed market price comparison functionality to display minimum, maximum, and average prices, alongside historical price trends.
- Added user accounts with sign-up and sign-in, profile management, and notifications for authentication actions and protected-page redirects.

FitLog – Workout Tracker & Gym Companion Live Demo | GitHub

Technologies: Next.js, React.js, TypeScript, React Context API, Tailwind CSS, DaisyUI

- Built a workout library for browsing exercises with muscle groups, equipment, duration, calorie estimates, and ratings.
- Developed detailed workout pages covering targets, difficulty, sets and reps, calories, and step-by-step form and safety guidance.
- Developed a “Today’s Plan” builder and tracker to add workouts, track sessions live, and mark exercises done, with instant visual and toast feedback.
