Profile

Full Stack Developer who started coding in the first year of college. I build beautiful, interactive and modern user interfaces, paired with robust, seamless functionality under the hood. Dedicated, collaborative and focused on getting the details right.

Skills

Frontend	Next.js, React, TypeScript, JavaScript, HTML5
Styling	TailwindCSS, CSS
UI libraries	Daisy UI, Hero UI
Backend and data	Node.js, Express.js, MongoDB, Better Auth
Tools	Git, GitHub

Projects

Fit Log (Next.js, TypeScript, React 19, Tailwind CSS v4)
A dark gym companion: workout library, per-workout pages, a daily plan builder, saved workouts and live session totals.
Live: https://assignment-5-dev-stack-isrv.vercel.app/
Code: https://github.com/abdullahraihan709-maker/FitLog

Book Vibe (Next.js, TypeScript, React 19, Tailwind CSS v4)
A book discovery and reading-tracker site with curated collections and book cards showing cover, author, genre and rating.
Live: https://my-book-vibe-woad.vercel.app/
Code: https://github.com/abdullahraihan709-maker/Book-Vibe

Dev Stack (Vite, TypeScript, React 19, Tailwind CSS v4)
An interactive builder for exploring, comparing and assembling a technology stack, with duplicate blocking and toast feedback.
Live: https://assignment-5-dev-stack-blond.vercel.app/
Code: https://github.com/abdullahraihan709-maker/DevStack
